

00 INTRODUCING

PinkRaft

Zaps for Payments. Powered by Stellar.

DRAG · DROP · DEPLOY

Building for payments is **changing**.

The old stack required low-level engineering. The new stack lets anyone wire flows in minutes.

Traditional

LEGACY

Rust

Smart contracts, hand-written

Specialist developer required

\$150 / HR • ~2 WEEKS TO SHIP

AI-Assisted Engineering

 PINK RAFT

Non-technical operators

No-code / low-code canvas

Vibe coding & voice prompts

End-to-end automation

LAUNCH IN AN AFTERNOON

Pink Raft.

Zaps for payments.

PILLAR 01

Zaps for payments

Programmable money flows wired together visually. Trigger, condition, action — done.

● STELLAR SOROBAN

PILLAR 02

No-code canvas

Drag, drop, deploy. No Rust toolchain, no Soroban CLI, no glue code to maintain.

● LIVE PREVIEW

PILLAR 03

AI-assisted, voice-first

Describe the flow in plain language. Pink Raft compiles it into an auditable on-chain pipeline.

● VOICE READY

03 FROM IDEA TO ON-CHAIN

<60s

From idea to on-chain.

DESCRIBE

GENERATE

REVIEW

DEPLOY

 AVG DEPLOY: 1.2S

Programmable payments, now buildable in an afternoon.

TRIGGER

Auto-scheduling

Cron-style recurring payments.

TRIGGER

API-triggered

Webhook in, on-chain transfer out.

TRIGGER

SMS & email

Inbound message fires the flow.

LOGIC

Oracle escrow

Release on verified condition.

LOGIC

Prediction settlement

Market resolution → payout.

ACTION

Streaming pay

Per-second compensation streams.

ACTION

Payroll

Multi-recipient disbursement runs.

ACTION

Notifications

Receipts, alerts, status pings.

Who we're building for.

// TARGET USERS

SEGMENT 01

Crypto-native SMBs & DAOs

SEGMENT 02

Web3 fintechs

SEGMENT 03

Remittance & payroll operators

// WHY NOW

TODAY

Rust engineer ~~2 weeks~~

~\$150 / hr • specialist required

WITH PINK RAFT

Launch in an afternoon

Operator-led • no Rust required

ESTIMATED SPEEDUP

~50× faster

06 VISION

The **Zapier** for payments.

Zapier became a verb by making automation accessible. Pink Raft does the same for programmable money on Stellar.

// ZAPIER • REFERENCE

\$200M_{ARR}

Built a category by becoming a **verb** — “just zap it.”

// PINK RAFT • AMBITION

Zap for payments

Powered by Stellar.

Built by operators & engineers.

● PINKRAFT.XYZ

Mark Hugh Neri

// CO-FOUNDER

Product & GTM. Sets the vision and runs the operator side of the house.

FOCUS

PRODUCT · GTM

Mycal Pejana

// CO-FOUNDER

Soroban contracts, the on-chain runtime, and the audit-ready deploy pipeline.

FOCUS

STELLAR · RUST

Carl Macabales

// CO-FOUNDER

Voice-to-flow compiler, prompt orchestration, and the AI-assisted canvas surface.
